STRUCTURE

THE COURSE

Eight personalized 1-on-1 sessions, approximately 60–90 minutes depending on the module.

01 **8 private classes · live on Zoom**

Eight personalized 1-on-1 sessions, approximately 60–90 minutes depending on the module.

02 **Step-by-step methodology**

A clear workflow — what to do, how to do it, why it works and how to improve it — designed to reduce frustration and prevent getting stuck.

03 **Produce from class one**

From the very first class, you start producing a track together with the instructor in real time.

04 **Practice + feedback**

After each class, you receive practical assignments. Every assignment is personally reviewed and corrected.

DELIVERABLES

THE OUTCOME

4 TRACKS DURING THE COURSE

Not just theory

1 track produced together during the classes + 3 additional tracks developed as assignments.

CONSISTENCY = RESULTS

Pace that works

We recommend 1–2 classes per week. Continue working between classes and avoid long gaps without producing.

FREE MASTERING INCLUDED

Release-ready

Professional mastering is included at no additional cost for the tracks you complete — taking your music toward a final version ready to present, release or submit to labels.

THE GOAL

Finish, not just learn

This isn't just about learning how to produce. It's about learning how to **finish** music.
